## INTRODUCTION

The Jewish Provincial Committee for Lower Silesia [**WKZ**] was created in June 1945 in Rychbach (now Dzierzoniow) and, by decision of the Central Committee of Polish Jews [**CKPZ**], was moved to Wroclaw in April 1-15 of 1946. With the development of Jewish settlements in Lower Silesia, district and municipal Jewish committees, subordinated to the Provincial Committee, were created as well. In July of 1945 there were 7, in the beginning of the following year – 21, with the goal to reach 47 by middle of the year. Beginning with July 1946, the number of committees, their functions as well as the number of people from the Jewish population belonging to them decreases systematically. The organizational structure of WKZ was not long lasting and was subject to rather frequent changes. In 1945, WKZ was composed of 6 departments: Productivization, Public Welfare, Mother and Child Care, Culture and Propaganda, Health and Records.

In the year 1949, WKZ was liquidated and part of its functions – mostly cultural and propaganda – was assigned to the Jewish Socio-Cultural Society [**TSKZ**]. At that time, all of the documents of the extinct committee were transferred to TSKZ in Wroclaw. In 1957, following a visit by representatives of the State Archives of Wroclaw, about 200 unclassified documents, in various conditions, were found in the storehouses of TSKZ. The cataloguing of the documents began as late as in 1972 and completed in 1974. At that time, most of the saved documents were considered to be of no value and, after separating 3.5 cu. meters of the most valuable documents, the rest of the material was considered waste. Thus 19 cu. meters of documents were destroyed. On that occasion the press reported on the liquidation of the foul smelling collection of garbage in the storehouses of TSKZ<sup>1</sup>

The documents taken over by the Archives were arranged in order, shaped (sometimes resulting in damage to the text) and framed. The collection was provided with a book inventory prepared by Sylwia Piechocka. Unfortunately, both the inventory and the titles of the individual documents, as well as time frame indicated on them contain some (but not too disturbing) mistakes.

In classifying the records as a basis for separating the material, the structure of the WKZ departments of 1946 was adopted, and the collection was divided into 9 sections; it must be stressed here that this arrangement is a secondary division accepted in the process of putting the collection in order by the employees of the Archives, Janina Michalska and Sylwia Piechocka. In the present shape, the collection encompasses the following sections:

General Section	Doc. No	1-21
Records and Statistics Section		22-101
Finance Section		102-142
Child Care Section		143-193

Youth Section 194

---

<sup>1</sup>Opoczynski J[akub]: Aims of the Wroclaw department. *Folks Sztyme* 1971 No. 43 p. 12

Cutural Section	195-196
Emigration Section	197-198
Productiveness Section	199-203
Circle of Professional Assoc. of Employees of Social Institutions at WKZ	203-206

The most valuable as historical material are without doubt the items from the General Section (Nos. 1-21), since they contain the most important records, descriptive and statistical reports of WKZ and other municipal and district committees. Genealogic research may be helped by numerous lists of names in the Records and Statistical Section, as well as letters from the Child Care Section. Unfortunately, almost all the documents from the Youth, Culture and Proganda as well as Emigration Sections were destroyed which makes it difficult, or rather impossible to carry out research on the number of the most factual questions of the Jewish population in Lower Silesia in the year 1945. Also, almost all the publications (with the exception of one copy of the CKZP Information Bulletin) were removed from the collection. The total preserved collection can be estimated at approx. 50%.

Documents relating to the **PZPR** Circle were not included in the collection of the Jewish Provincial Committee and following the selection and cataloguing they were transferred to the KW PZPR; part of the WKZ material can also be found in the documents of the Commissioner for Productivization of Jews in the Socio-Political Department of the Provincial Office (28 units)
