## **Introduction**

A history of the institution.

Organizations of the Zionist character emerged on the Polish soil in 1860s. In 1882, in Warsaw, a circle of the Chowewej Syjon movement. At the first conference of Chowewej Syjon in Katowice, in 1884, delegates all partitions of Poland took part. On the territory of the Russian partition of Poland, the movement was initially tolerated by the authorities but in 1903, it was declared as dangerous and developed illegally. On the territory of the Austrian partition, the Zionism also started to develop in 1880s. Its influence grew when the World War I was over and in the 1920s became one of the most influential Jewish political currents. Simultaneously it came to divisions within the organization, which resulted from different traditions of individual lands as well as from the diverse social situation of Jewry living there. The most popular one was a movement of General Zionists, which was connected with the World Zionist Organization. Its political program adapted on the Polish soil mainly consisted of: establishing of the national self-government and obtaining state funds to provide Hebrew schooling. In 1917, an orthodox faction of Mizrachi left the organization. On the territory of the former Russian partition, general Zionists occurred as an Al ha-Miszmar faction of a very radical character. Galicia was dominated by Et Liwnot, which emphasized the development of individual initiative. On the other hand, the socialist organizations were very popular. First independent circles of Zionist-socialists started to emerge in Russia at the end of 20<sup>th</sup> century. 1906, on the convention in Połtawa, a Poalej Syjon was established. The Polish Federation of Poalej Syjon joined it. In 1907, in the Hague, a World Federation of Poalej Syjon emerged. It was joined by the Polish and Russian federations. There was a break in 1920 during the V Conference of the World Federation in Vienna. Then the Poalej Syjon – The Left Wing (the Left wing) and the Poalej Syjon – The Right Wing (the Right wing) were established. The left wing became more popular in Poland. Youth organizations, a/o: Ha-Szomer Ha-Cair, Dror, Borochow Jugent, Gordonia, Nocham (a section of Gordonia), Bnej Akiwa, He-Chaluc played a fundamental role. Most of the Zionist organizations, particularly the youth ones continued their activity during the war. They played a crucial role in the organization of underground movement and armed resistance in ghettos and partisan squads. Most of those organizations were reconstructed after the war. Their activity was announced as illegal in 1949. In the collection of “Zionist organizations” in the JHI holdings, there is documentation of only some of the parties and organizations that operated in Poland after the war. The biggest collection that survived were: Ichud, Ha-Noar Ha-Cijoni, Keren ha-Jesod and Keren Kajemet. On that background, especially the documentation of the left wing of Poalej Syjon and the leftist youth organizations look quite modest. From the letter of the then director of JHI, Professor Bernard Mark of March 30, 1962 (JHI correspondence), we can learn that a big part of those materials, namely those referring to Poalej Syjon – The Left Wing (the Left wing), Ha-Szomer Ha-Cair as well as Ichud, were transferred to Archijon Awoda – the Archive of Trade Union in Israel. There were: circular letters related to the colonization of Palestine, chatty lectures for the kibbutzes, organization circular letters, correspondence with branch regional offices concerning finances, personal conflicts, searching of relatives, posters, accountancy, minutes of meetings, books and magazines and 5 banners of those organizations.

## **Ichud.**

The Federation of Democratic Zionists, „Ichud”, in Poland, initiated its activity in Poland in August 1944 in Lublin. It finally shaped on the 1<sup>st</sup> National Convention in Wrocław in November 1946. Ichud was not a political party as such but a broad movement of the generally Zionist character. Its main objective was to establish a Jewish state in Palestine, with the help of the USA, Great Britain or the USSR. The most important organ was the National Convention, which appointed the Central Committee, the General Council and the chairman of the party. Herman Parnas became a chairman of the Central Committee. The organization was divided into the so-called galiles (districts in Hebrew) which consisted of snifes (branch offices in Hebrew). There were various departments operating in individual provincial committees, a/o the Keren Kajem committees. The party consisted of approx. 7,000 members stemming mostly from intelligentsia, former factory owners, merchants, office workers, students and officers. Ichud focused on the assistance in the emigration to Palestine; a/o it helped in dealing with formal issues. Ichud closely cooperated with z AJDC and was partially financed by them. Remaining incomes were coming from the American and Palestinian donations and membership fees. Ichud established its own publishing house and party press, issued a bulletin and a periodical „Opinia”. There were some organizations connected with the party: a women organization WIZO, an Academic Federation of Zionists – Democrats and „Maawak” – a section of soldiers. Ichud was supposed to wind up by the decision of the Ministry of Public Administration by January 1950. The Mayor part of the collection consists of the correspondence of the Central Committee in Łódź and the documentation of the regional branch offices. Besides, there are documents of Academic Federation of Zionists – Democrats, Department of Organization, bulletins and other publications. The collection/record also includes the documentation of the Naval College in Elbląg. The Chief Command started to establish that school in summer 1947, due to the great importance of fishing industry for the future state of Israel.

**Ha-Noar Ha-Cijoni.** Ha-Noar documents constitute a separate collection - Ha-Cijoni „Akiba” – a youth organization of Ichud. It grouped young people aged 14-18. Those under 18 didn't enjoy full membership rights. Being 18 one could become a member of full rights with the right to vote and the right to be elected to the organization authorities. HaNoar Ha-Cijoni also issued its own bulletin and a lot of training materials. There are also foreign materials in that collection, which were issued by branch offices in Uruguay and in Hungary. Ha-Noar Ha-Cijoni developed its buoyant activity mainly in the Lower Silesia. A District Command that supervised snifs in that region operated there. There was also an Orphanage in Wrocław that operated under the auspices of Ha-Noar.

**WIZO.** There is also a documentation of a minor character in the collection which is related to WIZO - Women's International Zionist Organization, which closely cooperated with Ichud. It mainly dealt with the child care and activation of women. There are its organization materials and many foreign publishing houses in that collection.

There are also materials of **the Organization of General Zionists (Organization of General Zionists– Hitachdut Cijonim Klaliim) and Ha-Owed Ha-Cijoni** incorporated to the collection as they were regarded as organizations of politically related character and keeping in touch with Ichud. There are mainly publishing materials and bulletins distributed among various branch offices of Ichud in Poland in the educational and information purposes.

## **Jewish Zionist-Socialist Labor Party Poalej Syjon C.S. Hitachdut**

Just after the war, that party operated under the name of „Hitachdut” – a Jewish Zionist-Socialist Labor Party. Its Central Committee was situated in Łódź. Two youth organizations, Gordonia and Nocham were liaised with it. On July 17, 1947, in a result of the growing program conflicts, the right wing of Poalej Syjon – The Right Wing (the Right wing) merged with Hitachdut making a Jewish Zionist-Socialist Labor Party Poalej Syjon-Hitachdut. It was chaired by Józef Sack. It was finally wound up by the decision of MAP of December 1949. There are organization files in the collection of it: circular letters, documents related to the merger of Hitachdut and Poalej Syjon, protocols of the winding-up commission, rich out-going correspondence and the files of regional branch offices. There are also domestic and foreign publications and materials of the newspapers liaised with the party: „Nasze Słowo” i „Bafrajung”.

### **Gordonia.**

It was a youth organization liaised with a Jewish Zionist-Socialist Labor Party Poalej Syjon-Hitachdut and the organization of He-Chaluc. It ran centers of productivity and kibbutzes and published its own press. In 1947, part of the Dror members joined Gordonia (most of them joined Borochow Jugent, anyway). Alike all remaining Zionist youth organizations, it was wound up by the decision of MAP of December 1949. There are organization files of the Central Committee in the files as well as publications.

**Poalej Syjon – The Left Wing (the Left wing) , United Jewish Labor Party Poalej Syjon (United Jewish Labor Party Poalej Syjon) and Zjednoczona Jewisha Partia Robotnicza „Poalej Syjon – Ha-Szomer Ha-Cair”( United Jewish Labor Party Poalej Syjon-Ha-Szomer Ha-Cair”).**

In 1920, on the V conference of the World Federation of Poalej Syjon in Vienna the party split up into the Poalej Syjon – The Left Wing ( PS-L, the Left wing) and Poalej Syjon – The Right Wing (PS-P, the Right wing). In 1945, PS-L revived and was politically active. It was very popular, especially among the workers of big factories and members of Jewish cooperatives. Its Central Committee was chaired by Adolf Berman. It used to issue its own paper entitled „Przełom” (“Breifeshrough”). Poalej Syjon was reunited on October 19, 1947. In the result of the merger of PS-L and the left wing of PS-P, a United Jewish Labor Party „Poalej Syjon” was established. Adolf Berman became a chairman of it. Its regional committees operated in 60 places throughout Poland. It was the most powerful Zionist party in Poland. In June 1949, United Jewish Labor Party „Poalej Syjon” merged with Ha-Szomer Ha-Cair to make a United Jewish Labor Party „Poalej Syjon – Ha-Szomer Ha-Cair”. The collection of PS-L, United Jewish Labor Party „Poalej Syjon” and a United Jewish Labor Party „Poalej Syjon – Ha-Szomer Ha-Cair” is relatively modest. It mostly consists of circular letters, organization files, publications and a very limited documentation from regional branch offices. There are also declarations of membership of the United Jewish Labor Party „Poalej Syjon” and a United Jewish Labor Party „Poalej Syjon – Ha-Szomer Ha-Cair” in the Yiddish language.

### **Jewish Labor Party Ha-Szomer Ha-Cair.**

It was established in 1946 on the basis of the leftist youth organization Ha-Szomer Ha-Cair which had been active since pre-war times. Its founding convention had place in September 1946 in Łódź. The organization was supervised by He-Chaluc – Pionier. It used to run orphanages, organized summer youth camps and published its own newspaper called „Mosty” (“Bridges”) along with the supplement „Zew Młodych” and educational materials. Ha-Szomer Ha-Cair supported also the actions of Keren Kajemet, used to run

numerous kibbutzes and organized Hebrew schools. Its policy was controlled by the Central Committee and the National Council. In June 1949, a Special Convention of the United Jewish Labor Party „Ha-Szomer Ha-Cair” passed a resolution to merge with the United Jewish Labor Party „Poalej Syjon” and established a United Jewish Labor Party „Poalej Syjon – Ha-Szomer Ha-Cair”. It was wound up by the decision of on February 1950. In the collection, there are organization materials, made out mainly prior to the merger of the United Jewish Labor Party „Poalej Syjon and the United Jewish Labor Party Ha-Szomer Ha-Cair”, then the documents of winding up in 1949 and a lot of publication materials, including those to be published in the „Mosty”, as well as the correspondence related to them and educational materials.

### **He- Chaluc – Pionier.**

He-Chaluc reactivated after the war on December 5, 1945 and grouped several pre-war youth organizations: Ha-Szomer Ha-Cair, Dror, Gordonia and Borochow Jugent. The organization set up groups of workers, artisans workshops, organized and ran vocational courses, farms, community centers and libraries. The organization was headed by the Central Committee, Main Council, The Convention of Delegates, local committees and managers of youth circles. It was financed by the membership fees and foreign donations from AJDC, Keren Kajemet and Keren ha-Jesod. He-Chaluc was wound up on January 1950. The collection contains organization files of the head office in Łódź and the documents of kibbutzes in Bytom, Gliwice, Wałbrzych and Wrocław.

### **Dror and Borochow Jugent.**

Borochow Jugent was the organization liaised with Poalej Syjon – The Left Wing (the Left wing) and its objective was to provide future party cadres. It cooperated with He-Chaluc, educated its members, ran productivity centers, artisan workshops and schooling centers. The organization called Dror (freedom in Hebrew) was a He-Chaluc subsidiary. It also dealt with the organization of productivity centers and kibbutzes. Borochow Jugent enjoyed its biggest growth after the merger of Poalej Syjon- The Left Wing (the Left wing) with the left wing of z Poalej Syjon- Prawicy (the Right wing) and when the United Jewish Labor Party „Poalej Syjon” was established in October 1947. Then two youth organizations liaised with it, i.e. Borochow Jugent and a part of Dror merged to create one organization: Dror-Borochow Jugent, which was wound up by the Ministry of Public Administration on Dec. 1, 1949. There are organization files in this collection, which mainly come from the period after the merger (save several circular letters of Dror prior to the merger):Circular letters, correspondence of the Łódź headquarters, minutes, reports and publishing materials.

### **Keren ha-Jesod.**

Keren ha-Jesod – A Society (Fund) of the Restoration of Palestine is a central institution to finance the activity of the Jewish Agency for Palestine. It was set up in 1920 during the Zionist conference in London. It also resumed its activity in post-war Poland in 1927. In July that year, in Wrocław, the first conference had place. Its operations were supervised by the National Office headed by 25 directors. The headquarters were located in Łódź, whereas local committees operated in individual regional offices. The organization was financed mainly by membership fees and fundraising activities. Keren ha-Jesod wound up its activities in Poland in 1950. The collection related to that organization contains mainly the correspondence of its headquarters in Łódź and the documents of individual regional branch offices. The organization issued its own bulletin. Also the publications of the Jewish Agency

for Palestine have been attached to the collection as well as various foreign publications related to the fund and photographs illustrating the life in Palestine, as well as posters.

### **Keren Kajemet le-Israel.**

Keren Kajemet le-Israel – Jewish National Fund was created on December 29, 1901 on the V World Zionist Congress. Its objective was to purchase land in Palestine and manage it. Keren Kajemet resumed its activity after the war, in June 1946. The Main Office was in Łódź, where the I National Congress of the organization activists had place. The Fund operated throughout Poland through its trusts. Its operations were financed by voluntary offerings, a system of monthly taxation was also introduced, special actions were organized, e.g. some fundraising for the planting of a forest to commemorate Polish Jews (Polish Jews Forest, Jaar Kdoszej Polin). The KKL objective was also to deal with the property matters and return of the private ownership of immobile property belonging to Polish citizens of the Jewish origin who lived in Israel. The main Office was authorized to supervise and administer regained property and had a right to manage them till the moment of their sale. Therefore, a Mayor part of the collection consists of the correspondence of the Legal Department of Keren Kajeme of KKL with its headquarters in Jerusalem, that related to the property matters. Besides, the collection comprises the correspondence of the Łódź headquarters and the materials of regional branch offices. Keren Kajemet used to issue its own bulletin; there are also bulletins of the organization in Austria, brochures and periodicals of various kind from Poland and from abroad as well as posters, newsletters and leaflets.

### **Jewish Makabi Sports Clubs.**

The first Makabi Clubs were set up in Berlin and Constantynopole at the end of 19th century. They emerged on the Polish soil in 1926, in Bielsk, which became the main place of Jewish gymnastics and sports. In Warsaw, in 193, the convention of the Polish division of the World „Makabi” Federation, which replaced the Jewish Council of Physical Education of the Republic of Poland. „Makabi” Clubs in Warsaw, Krakow and Lvov were the most buoyant. The documentation included in the collection of „Zionist organizations” refers to the “Makabi” Jewish Sports Club in Łódź. The organization keeps itself out of membership fees, voluntary offerings and donations as well as incomes from organized performances and lectures. The collection consists of: statutes of organizations, reports of their activities and questionnaires of their members.

In the last part of the collection – **Attachments**, the materials that are related with neither of the above mentioned organization are included. It's correspondence kept by Dr. I. Rabin from Wrocław, which incorporates mainly reports and resolutions of the World Zionist Organization congress of 1927. As the next, the documents related to the Hebrew schooling in Bielawa, Bielsk, Dzierżoniów, Katowice, Krakow, Legnica, Łódź, Szczecin, Wałbrzych and Wrocław have been placed. The correspondence related to the teaching in Hebrew, is also located in the Schooling Department He-Chaluc – Pionier (a. u. 330). The last part consists of Bulletins: Palcor, Jewish Telegraphic Agency, the Legation of Israel, Bulletins from the Zionist Conference in Basel, Poalej Emunej Istroel Be-Polin, Bulletins of the Ministry of Security of Israel and the Ministry of Foreign Affairs, notifications of Hagana and publications of various kind: brochures, periodicals, books, educational materials, among them were those for children.

## **Principles of files arrangement**

The largest Zionist organizations and parties have been arranged in alphabetical order, then, each one has been followed by the materials of the youth or women's organizations subordinated to them, as well as the documentation of related organizations operating throughout the world, which did not have their representation in Poland. The documentation of youth organizations have been attached to the parties under the auspices of which they operated, although they were also associated within He-Chaluc – Pionier. Jewish Sports Club Makabi was not related to any of the parties. The files within subcollections have been divided into several groups. The first group incorporated general organization files: circular letters, protocols/minutes, reports, general domestic and foreign correspondence, personal files, personal files related to the staff and departments files. The next group included materials for publication, issued both by organizations and those which incoming from the related organizations from abroad. The last part contained the files of regional branch offices. Most of the materials used to be scattered from many years, therefore it was difficult to determine the provenance of some of the documents, particularly those that survived only in fragments. They have been located in the units called miscellaneous (a. u. 598-600).

## **Description of files in the inventory.**

The description of archival unit in the inventory consists of several parts. It opens with the merit features of the files, e.g. protocols/minutes, reports, name lists, correspondence, etc. with the quantity of each in parentheses. The units for which the index of persons have been made have been furnished with a unified information: *Index of persons*. In the outer description of the material the following information has been given: the earliest and the latest date of documents, the way of recording (manuscript, typescript, print, photograph), the language, way of keeping them (loose files or bound copies) as well as the number of pages in the unit.

The works on the inventory of the archive of Zionist Organizations were conducted in 2011 thanks to the financial support of the United States Holocaust Memorial Museum in Washington.
