## FOREWORD

Prior to creation of one organ to handle resettlement issues on territory of the Republic – Main Resettlement Administration of Council of Ministries of RSFSR – issues of resettlement were handled by various organizations: resettlement department of NKVD of USSR, resettlement bureau of National committee on agriculture in USSR and partially committee on agricultural settlement of working Jews, organization of American Jewish society on resettlement and economic accommodation of working Jews, and North regional department of National committee on agriculture in RSFSR. However, all these organizations handled resettlement issue alongside with other issues.

Immediate predecessor of Resettlement Administration of Council of Ministries of RSFSR was department of Council of National Commissars (SNK) of RSFSR on economic accommodation of evacuated population, created in February 1942 on the base of administration of evacuation of population, liquidated in accordance with decision of SNK of USSR of 31 January 1942.

The department of SNK of RSFSR on economic accommodation of evacuated population was charged with following problems:

1. Evacuation and servicing of evacuated population throughout journey.
2. Location of evacuated population, its work arrangements and everyday services.
3. Resettlement of kolkhoz economies

The department included the following sectors:

1. Transport
2. Work arrangements and everyday services
3. Resettlement of kolkhoz economies
4. Registration-statistical
5. Office
6. Economic section

In accordance with decision of SNK of USSR No. 2059 of 14 August 1945<sup>1</sup> and decision of SNK RSFSR No. 557 of 14 September 1945<sup>2</sup>, SNK RSFSR department of economic accommodation of evacuated population was transformed into the independent/standing apart Resettlement Administration of Council of Ministries of RSFR.

During this period the task of economic accommodation of evacuated population was accomplished and primary tasks became resettlement of kolkhozniks and small farmers from districts and autonomous republics to large farms, as well as carrying out intra-regional resettlement and resettlement in accordance with special decisions of the authorities. These tasks were assigned to Resettlement Administration of Council of Ministries of RSFSR.

Resettlement Administration directed organization and conduct of works on re-evacuation of population, reception and location of re-evacuated (?) Soviet citizens.

The Administration was composed of the following departments:

1. Department of organization of selection and dispatch of re-settlers
2. Department of organization of reception and economic accommodations of re-settlers
3. Department of re-evacuation and repatriation of Soviet citizens
4. Planning-financial department
5. Transport department
6. Personnel department
7. Provisions department
8. Administrative-economic department

Gradually, structure of Administration changed with changes in administrative tasks. In 1950, the Provisions department and Department on re-evacuation and repatriation of Soviet citizens were abolished and Department on intra-regional resettlement and group on repatriation of Soviet citizens were re-established.

In 1952, the Administration was re-structured at the core: in place of above-mentioned departments, departments of resettlement of Northern and Eastern regions, resettlement of Southern regions and Volga region, and resettlement of central regions, were created<sup>3</sup>/i.e. by territory/.

In accordance with decision No. 349 of 1 April 1953, of the Council of Ministries of RSFSR, the Administration was transferred to the Ministry of Agriculture and procurement of RSFSR and became known as Main Resettlement Administration.<sup>4</sup> With liquidation in December 1953 of Ministry of Agriculture and procurement of RSFSR, the Main Resettlement Administration was placed under the Ministry of Agriculture of RSFSR.<sup>5</sup>

In accordance with decision No. 1776 of 18 December 1954 of Council of Ministries of RSFSR, the Main Resettlement Administration was placed again directly under the Council of Ministries of RSFSR.

During this period, its structure was as follows:

1. Department of organization of selection and transport of population
2. Department of organization of reception and economic accommodation of re-settlers
3. Department of resettlement to regions of large hydro-technical construction
4. Planning-financial department
5. Economic department
6. Accounting

The Main Resettlement Administration terminated its activity based on decision of Council of Ministries of RSFSR on 3 August 1956, giving over its functions again to the newly created Main Resettlement administration and organized recruited workers with Council of Ministries of RSFSR.

Due to frequently repeated transfer of Main Resettlement Administration from one authority to another, documents of the Administration were scattered in archives of various institutions.

The first entry of documents of Main Resettlement Administration of Council of Ministries of RSFSR to State Central Archives of RSFSR was in December 1962, when as a result of selection of documents in departmental archives of Agriculture Ministry of RSFSR, 512 storage units for years 1945-1952 were discovered.

In May of the same year, 6 additional storage units for years 1923-1952 were accepted from the same source. The accepted documents included depository inventories but did not meet archival practices / lacked accurate systematization, obscure headings/.

The second large entry of documents of Main Resettlement Administration of Council of Ministries of RSFSR took place in May 1964: from Main Resettlement Administration archive and collection of Council of Ministries of RSFSR, 235 storage units for years 1945-1956 were included in Opis 1.

The third large entry of documents of Main Resettlement Administration of Council of Ministries of RSFSR took place in January 1966: from Central State Archives of the USSR, 288 storage units for 1942 were included. These are lists of citizens evacuated to various regions and districts of RSFSR which were

stored in Central statistical administration of RSFSR and in 1956 were transferred to Central State Archives of the USSR.

Documents included from Ministry of Agriculture of RSFSR and Central State Archives of the USSR were subjected in Central State archive of RSFSR to scientific-technical processing, resulting in preparation of Opis 2.

Thus, for documents of Main Resettlement Administration of Council of Ministries of RSFSR two Opisi were prepared:

Opis 1 includes documents:

1. Of Main Resettlement Administration of Council of Ministries of RSFSR /1942-1953/
2. Of Main Resettlement Administration of Ministry of Agriculture and procurement of RSFSR / 1953/
3. Of Main Resettlement Administration of Ministry of Agriculture of RSFSR / 1953-1954/
4. Of Main Resettlement Administration of Council of Ministries of RSFSR /1954-1956/

Opis 2 is an addition to Opis 1 and includes documents:

1. Of Council of Ministries of RSFSR on economic accommodation of evacuated population /1942-1945/
2. Of Main Resettlement Administration of Council of Ministries of RSFSR /1945-1952/

In view of succession of functions and tasks of all above-mentioned institutions, through decision No... of ....1966 of methodical commission of Central State archives of RSFSR, a unified fund of Main Resettlement Administration of Council of Ministries of RSFSR and its predecessor was created.

Documents of department of Council of Ministries of RSFSR on economic accommodations of evacuated population are organized by years and within years by level of importance. The main group of these documents is composed of memoranda/reports of representatives of Council of Ministries of RSFSR on economic accommodations and every-day assistance to population evacuated to Autonomous Republics of Soviet Union (ASSR), regions, and districts of RSFSR. The documents are organized by alphabet of ASSR, regions and districts; authorship is not taken into account in organization. These materials are of great interest for study of one of the important stages of the war. Of particular note is presence in documents for 1942 of lists of citizens evacuated to RSFSR from occupied areas. These are organized by alphabet of ASSR, regions and districts to which population was evacuated; moreover, inventory includes 4 storage units consisting of lists of citizens evacuated to Armenia and Azerbaijan.

Documents of resettlement administration with Council of Ministries of RSFSR are organized by sections as follows:

1. Secretariat
2. Planning-financial department
3. Department of organization of selection and dispatch of re-settlers
4. Department of organization of reception and economic accommodation of re-settlers
5. Department of repatriation and re-evacuation of Soviet citizens
6. Department of intra-regional resettlement
7. Transport department

Within each section, the documents are organized by years and within each year by level of significance.

Secretariat's documents are: draft decisions of Council of Ministries of RSFSR and memoranda of Resettlement administration with Council of Ministries of RSFSR; even where there is no draft decision but only memoranda to Council of Ministries of RSFSR, the storage units are placed at the beginning of the inventory; records of board meetings and related materials. Secretariat's documents reflect issues of resettlement of population to Sakhalin and Kaliningrad regions, to Karelsky Peresheyek (Karelian Isthmus), and other regions of RSFSR.

Information on number of re-settlers, resettlement plans and reports of resettlement departments with regional executive committees are found among documents of planning-financial administration.

Additional to secretariat's documents are documents of department of organization and selection and dispatch of re-settlers and of department of organization of reception and economic accommodation of re-settlers. Documents of these departments reflect economic resettlement and economic accommodation of population in new locations. Among documents are reports of regional executive committees and memoranda of inspectors on investigation of work of resettlement departments of regional executive committees with resettled population.

It is of note that some groups of materials/ plans of resettlement administration on resettlement, reports of local resettlement departments, etc./ can be found among documents of several departments/ planning-financial, department on organization and dispatch of re-settlers and department on organization of reception and economic accommodation of re-settlers/.

Of special interest are unique materials of department of repatriation and re-evacuation of Soviet citizens. Among these, information on number of repatriated population, indication of countries from repatriation: /France, China, Romania, Finland, Poland/, lists of repatriated citizens, reports of regional executive committees and correspondence with regional executive committees and departments on economic accommodation of repatriated citizens.

Among documents of this department are found lists of Polish citizens returning to Poland. Chronological frame of the department: 1945-1950.

Accounting documents are reports of resettlement departments with regional executive committees on main activities. Fund documents are preserved in full. In total, Opis 1 and 2 include 1059 storage units.
