

On what occasion was there a-- was there a particular time when you became aware of what was happening?

No, after I find out [? they're ?] just taking people and send them to kill, you know.

OK, how did you feel the first time you saw a Jew wearing the yellow Star of David?

Awful. Like you see the Jewish people far away, you know that they're Jewish, yeah?

What was the most stressful situation you were in during the war?

Like I come in from the jail home. I really have a hard time. Coming home, nothing I find at the home. Everything is burned. Only left are chicken coop. Chicken coop left. That's all.

And what was your reaction to this stress?

Really bad.

Did you-- what did you--

I start to cry. I cry. We have no place to live.

I think that's everything from my side.
